

Introducing Isotec Security's

# SYNERGY UNIVERSAL

Synergy Universal is the fastest and most economical way to upgrade Novacomm or Hamilton Safe security vestibules.

Synergy Universal's architecture and adaptability can also serve as the electronics foundation for converting any vestibule area into an interlocking door system. The technology incorporates Isotec Security's Programmable Logic Controller, Three in One Color Touchscreen Console, Power Supply, and Associated Cables. A Step by Step pictorial installation Manual is also provided, along with Isotec's renowned technical support services. Installation and testing takes less than 4 hours.

## SYSTEM COMPONENTS:

- Synergy Controller Assembly
- 15"x18"x7" Enclosure with Hinged Cover
