Company Overview

Isotec Security, Inc. provides comprehensive design, and engineering services focused on site specific and standardized interlocking door systems for, weapons detection, automated entrance & exit access control solutions. Our engineering and product development teams are experts at designing site specific solutions that are risk appropriate.

Isotec's interlocking portals have the Certificate of Designation by the Department of Homeland Security as Qualified Anti-terrorism Technologies (#F-542-D). Isotec's Safety Entrances® protect federal agencies, municipal and commercial customers nationwide. In addition, our interlocking door technologies protect strategic assets for the Departments of Defense, Energy and Homeland Security.
