

## Tablet IQ Operating Electronics

 Microsoft Surface Pro 6

Isotec's Tablet IQ is our flagship electronics operating system for repairing Isotec Safety Entrances®. Tablet IQ has all the functionality and so much more than our venerable 3 in 1 Synergy Console, and it will reduce installation cost. Tablet IQ is another industry first for Isotec; with a multitude of IP features and benefits that include WiFi or Ethernet wired utility, greater intuitive functionality, new user friendly rich interface, video viewing, intercom communication, and wireless mobility built into one platform. Either wireless or Ethernet versions will be quoted for repairing obsolete or out dated electronic operating systems. For more information contact us at [www.sales.isotecinc.com](http://www.sales.isotecinc.com).
