

Federal Capability Statement

Isotec Security, Inc. provides comprehensive design, engineering services and system integration focused on site specific and standardized mantraps/ security portals/ vestibules for automated entrance & exit access control solutions. Isotec provides products and services for federal, municipal and commercial clients.

We provide "turnkey" services and also subcontract to prime contractors. Our interlocking mantrap doors protect strategic assets for the Departments of Defense, Energy and Homeland Security. Isotec's engineering and design team configure entrance and exit structures that blend into existing architectures. Our security solutions can interface with legacy security systems or operate as a stand-alone security entrance. Our ladder logic software for our automated entrances is also configurable to meet diverse security and operational scenario requisites. We pride ourselves on maintaining close working relationships with our clients to ensure we deliver the desired risk appropriate solution.

Core Competencies

- Manufactures Mantrap Entrances & Exits
- Weapons Detection Systems
- Manufactures Electronics and Site Specific Software Operating Systems
- Systems Integration and Interface of Proprietary or COTS Technologies
- 24/7 Technical Support
- Turn Key Solutions or Sub-contracts to Prime Contractors.
- Onsite Technician & Operator Training
